Re: Erik Paulson, DO
Mammography Training

To Whom It May Concern:

Erik Paulson, D.O., was a resident at Oklahoma State University Medical Center from July 1, 2010 to June 30, 2014. During this time, he received a minimum of three months training in the interpretation of mammograms, breast ultrasound, wire localizations, cyst aspirations and stereotactic and ultrasound guided biopsies, including instruction in radiation physics, radiation effects, radiation protection, and at least 60 hours of medical education in mammography including a minimum of 8 hours of digital mammography training. He interpreted or multi-read at least 240 mammograms within the last 6 months, under the direct supervision of a qualified interpreting physician.

Sincerely,

A handwritten signature in cursive script that reads "Jeremy Fullingim, D.O.".
